Vision, Mission & Values

Vision

To be the trusted partner in technical verification and engineering excellence.

Mission

To support automotive manufacturers in achieving product quality through systematic verification, validation & continuous process improvement.

Core Values

- Quality & Precision
- Customer Focus
- Teamwork
- Technical Expertise
- Innovation
- Timely Delivery

Service Elements Of Veriton

Our robust portfolio of specialized engineering and operational support services ensures maximum quality, compliance, and efficiency.

Warehouse / Store Management

Services provided across multiple locations including inventory control and production material issues.

Inspection

Conducted at different process stages and locations by experienced commodity inspectors.

Dispatch Management

Outsourced management enabling timely customer deliveries via optimized planning.

Procurement Solutions

Streamline operations, cut costs, and maintain intense focus on core business goals.

Audits

Second-party audits to reveal issues, drive continuous improvement, and boost efficiency.

Training & Development

Programs designed to enhance internal team skills and strengthen supplier performance.

Verification & Validation

Validation confirms that *"we built the right thing"* and that it functions correctly for its intended purpose, meeting customer and regulatory requirements.

Key Objectives:

- Ensure the process or product meets end-use requirements
- Confirm compliance with industry standards and customer specifications
- Build confidence in quality, safety, and performance before release

Inspection Services

Veriton offers expert inspection services with commodity-experienced inspectors across all critical stages:

- **Receipt Inspection:** Verify incoming materials from suppliers
- **In-Process Inspection:** Monitor ongoing manufacturing quality
- **Firewall / Pre-Dispatch Inspection (PDI):** Final safety check before dispatch
- **Customer End / Dealer End:** Address field and final destination quality
- **Containment:** Rapid containment actions for quality escapes

Procurement Solutions

We provide end-to-end procurement solutions to support operations around Quality, Cost, and Delivery (QCD):

- **Supplier Selection:** Extensive solutions with multiple supplier options for new product development.
- **Non-BOM / BOM Material Procurement:** On-time material delivery aligned strictly with production schedules.
- **Capacity Verification:** Assessing supplier capabilities to meet production goals and execute audits for schedule improvements.

Warehouse Management

- **Incoming Material Handling:** Receive, inspect, and verify supplier materials.
- **GRN Generation:** Accurately record goods receipts in the system.
- **Inventory Control:** Maintain optimal stock levels and monitor storage.
- **Exception Management:** Flag discrepancies immediately if inventory deviates from targets.
- **Production Material Issue:** Ensure timely supply of materials to assembly/production lines.

Dispatch Management & Audits

Dispatch Management

- FG Material handling & storage
- Bin / Trolley management
- Tagging & Labeling for tracking
- Accurate vehicle loading
- System invoice generation

Comprehensive Audits

- **Process Audit:** Assess adherence & efficiency
- **Product Audit:** Verify conformity
- **Capacity Audit:** Evaluate throughput
- **Supplier / Dealer Audits:** Review compliance

Training & Development

Delivered by expert subject matter specialists (freelancers) to elevate internal teams:

- **Quality Core Tools:** Essential quality methodologies awareness
- **5S Implementation:** Organize and standardize workplaces
- **Cost of Poor Quality (COPQ):** Understand and reduce financial losses
- **Quality Culture:** Foster continuous improvement and excellence

Why Veriton?

Subject Matter Expertise: Experienced professionals and industry specialists to handle diverse technical requirements.

Customized Approach: Tailor-made solutions precisely aligned with customer goals and specific challenges.

Proven Processes: Standardized methods and formats ensuring consistent, repeatable efficiency.

Flexibility & Responsiveness: Quick adaptation to changing customer demands, priorities, and timelines.
